October 30, 2014

As the end of the year approaches, you are again facing the tedious task of compiling year-end employee census information and securely sending it to Feldman Benefit Services, Inc. Did you know there is an alternate solution to manually entering this same information year in year out? It's called *Payroll Integration* and is easier, more cost-effective, will save you precious time....and yes, headaches, not only during your annual end-of-year requirements but all year long.

Feldman Benefit Services, Inc. (FBS) www.feldmanbenefit.com is excited to announce a new affiliation with **Balance Point Payroll** www.balancepointpayroll.com, a company that shares our philosophy of providing Clients with the highest level of expertise and service by offering program options suited to meet your specific business needs and budgets.

FBS & Balance Point will be hosting an informative 20 minute Webinar on Payroll Integration - We invite you to attend. You will learn valuable information such as how you can:

- 1) Reduce time and hassle of regular data entry for payroll processing and benefits management
- 2) Provide year-end information to FBS without having to manually enter data
- 3) Provide year-end information to FBS without having to create time consuming spreadsheets
- 4) Reduce the potential of data-entry mistakes, thus reducing liability
- 5) Provide per payroll information to your Investment Provider automatically

To be part of this informative webinar, simply click on the link below to register.
